Application Instructions

When an Application to the Historic Preservation Commission is required

Any development, construction, alteration, rehabilitation or repair of any sign, building or property within the four designated Historic Districts of the City or a landmark building, requires the owner of the property to first secure a Certificate of No Effect (CoNE) or a Certificate of Appropriateness (CoA) from the Jersey City Historic Preservation Commission (HPC), whether or not a construction permit

You are applying to receive either a Certificate of No Effect or a Certificate of Appropriateness

These Certificates are obtained by submitting this completed application, descriptive materials, and fee to the Historic Preservation Officer (HPO) at the Division of City Planning, located at City Hall Annex- 2nd Flr. Rm 406 One Jackson Square A/K/A 360 MLK Drive JC,NJ 07305. Hours: 9:00am - 4:30pm Phone #: (201) 547-5010 FAX # (201) 547-4323

All applications will be reviewed by the HPO who may issue a CoNE if the proposed work is for minor alteration or ordinary maintenance repair and will not effect the historic character of the property. If the proposed work would substantially alter the existing character of the property, the HPO may refer the application to the HPC. The HPO shall refer all applications for new construction, alterations, relocation or demolition to the HPC for hearing. If approved by the HPC, a CoA will be issued.

A completed application, 13 sets of descriptive materials, fee, and escrow deposit with signed agreement form, if applicable, must be

submitted to the Division of City Planning at least two weeks (14 days) prior to the hearing date.

The HPC meets once per month, on the 2nd or 3rd Monday (unless otherwise noted on the official calendar), at 6:30pm in the Council Chambers of City Hall, 280 Grove Street, Jersey City, NJ. An official calendar of the annual meetings may be obtained from the HPO.

Standards and guidelines which must be followed (copies available at the Division of City Planning)

The Land Development Ordinance of the City of Jersey City outlines the HPC application process and contains the zoning standards for development in the Historic District. The Ordinance also contains Historic Preservation Design Guidelines and other guidelines to assist the public in applying to for historic approvals and to enunciate Commission policy.

Descriptive Materials required to be submitted with this application

- Appropriate sketches and/or signed architectural drawings
- Color and materials samples and manufacturer specifications of all materials to be used including catalog sheets, sample paint
- A current color photograph of the existing building facade showing details
- 1938 Tax Assessor's photo, if applicable and not already on file (generally available at the Tax Assessor's Office, City Hall)
